

Girl Scout Workshops

Muddy Waters Studio

We charge just \$10 per Scout with a minimum of 6 girls or \$60 for ALL of our workshops. Our maximum class size is 12 girls.

Daisy Workshops (5-7)

Daisy Flower Garden Workshop

The girls will make a clay flowerpot using hand-building techniques. Each flowerpot will be decorated using themes taken from the flower badges and Girl Scout Laws. The clay pieces can be picked up at a later date.

Between Earth and Sky Workshop

Each girl will choose a state and will work with clay to create a landscape representing it. For example: an ice fishing scene for Alaska, a camping scene in the mountains for Colorado, or a farmer plowing a field for Kansas. The clay pieces can be picked up at a later date.

3 Cheers for Animals Workshop

Each girl will create a sculpture of her favorite animal out of clay and we will discuss what caring for that animal involves. The clay pieces can be picked up at a later date.

Brownie Workshops (7-9)

Potter Badge Workshop

The girls will create slab plates and small sculptures out of clay. We will discuss the firing process and the girls will get to pick glaze colors for their masterpieces. We will finish the class with a pottery wheel demonstration. The clay pieces can be picked up at a later date.

Painting Badge Workshop

The girls will examine artworks as inspiration for their own landscape paintings. Using real images of Kansas, the girls will paint iconic Kansas landscapes – paying close attention to their use of color and technique to convey different moods and styles. Each girl will get a chance to explore different painting techniques to create a small mural for the troop.

Junior Workshops (9-11)

Drawing Badge Workshop

Each girl will design a personalized art logo for her own art portfolio! The girls will also experiment with different shading techniques, drawing materials, and explore one-point perspective.

Jeweler Badge Workshop

We will focus on making pendants out of clay as well as glass or stones. The first pendant will be a “caged” stone pendant using glass or a stone that they bring in. The second project, we will make clay pendants or earrings with a nature theme. The third pendant will be a clay pendant that has an animal theme. The clay pieces can be picked up at a later date.* *Each girl is encouraged (but not required) to bring in a stone or the like to create the caged pendant project. (Glass mosaic pieces are provided)***

Cadette Workshops (11-14)

Book Artist Workshop

The girls will examine and classify different styles of books based on each book’s unique binding and function. They will create mini sample books using different binding techniques.

Each girl will choose her favorite style to make a larger memory book. Using old photos, the girls will repurpose materials to convey their own unique story.

Comic Artist Workshop

After looking at many different examples of comic art from newspapers and books, the girls will play a quick game to unearth the potential of their own creative humor. The girls will learn how to convey motion by using a stick-figure technique, and will then get to create their own story lines, paying attention to characters, setting and quote bubbles. To complete their comic panel, they will sketch their frames, ink and add color.

Senior Workshops (14-16)

Collage Artist workshop

The girls will examine the different collage styles, purposes and materials that have been used throughout history. Collaboratively, they will create multiple cubomania collages, focusing on specific color themes. Together, they will come up with a message they want to share, and will explore different collage techniques to create a final collaborative piece. * *Each girl is encouraged (but not required) to bring in found or personal materials, such as receipts, photos, ticket stubs, buttons, fabric, etc. to use for this workshop.***
